About PUSH-K Solutions

PUSH-K Solutions was founded in 2007 and it has been operating since then. We started with offline advertising and Event management, so our position here is classically strong, and proven by the great projects for leading companies.

Since 2011 we constantly lead Internet advertising campaigns. There are experience, achievements, statistics, tools&processes knowledge and professional team. At the moment we have great opportunities herein, providing high performance solutions on the Internet promotion.

Since 2014 we`ve been developing websites. Even then, this market was over competitive, but we successfully got into it. Today this division is professional web studio with a closed production cycle. We`ve got a lot of Awards, our websites regularly take top positions at rankings of website developers. Well done design, first class programming, marketing orientation and e-commerce expertise are our benefits. We support and manage content at wide range of our clients websites. We are focused on long term partnership and follow one easy rule "Every work - Artwork"

Agency has been providing design services for a long time – it is impossible to calculate the number of done artworks. Design and production are an integral part of our work. Agency was even awarded by Kyiv City Hall for creative and design support in communicational campaign. We always have something interesting under construction, regularly manufacture amazing stuff and usually are involved in unusual projects for TV, cinema in Ukraine and Europe – we`ve exported and installed over 10 TV studio sceneries (decorations) and unique exhibition stands for European clients for last years.

As of 2026, PUSH-K Solutions is an experienced digital agency focused on the development of exclusive websites, design, production, Internet advertising and implementation of communication campaigns in Ukraine and abroad. Despite the war in Ukraine, we did not stop and passed 2022, 2023, 2024, 2025 years with high performance and achievements. We`ve implemented dozens of complex projects. For the first time we`ve received an international award for the developed web site in 2023 and repeated this success all next years. Our works also won over 20 national awards for last 4 years. Most of our clients is international global companies operating worldwide and successful Ukrainian business.
